ABOUT US

Anti-corrosion Rubber lining services & Rubber Products supply is diversified division of ENMAS OMAN. We are specialized in providing various rubber lining services to all kind of industrial sectors in Oman. ENMAS Rubber division offers prowess and proven leadership in innovative rubber lining services and product supply.

ENMAS OMAN is always feel excited to provide best in class technical suggestions & solutions to deliver a longer service life of your Equipments. Thanks to our team, who had lived through the rubber lining services over a decade.

We are here to fulfil all your requirement in rubber products. Thanks to our Associates work all the way to supply your requirements in moulded and extruded rubber products, Rubber expansion joints, Hoses, Pulley lagging, Rubber rollers, Conveyor belts & Conveyor system components.

1

**Anti Corrosion
Rubber Lining**

2

**Moulded & Extruded
Products**

3

**Pulley Lagging, Expansion
Joints & Hoses**

4

PTFE Products

5

**Conveyor Belting,
Components & Accessories**

WE ARE HERE

One stop shop for all kind of anti-corrosion anti abrasion rubber lining requirements in any Processing Plants like Fertilizers, Caus-tic Soda, Water Desalination, Petroleum refineries, Oil & Gas etc. in Sultanate of Oman

Anti-Corrosion Rubber Lining

Tanks , Vessels , Scrubber , Reactor , Evaporator , Ion exchange vessels, FGD , Acid Storage tanks

Pipe Lining

Road Tankers

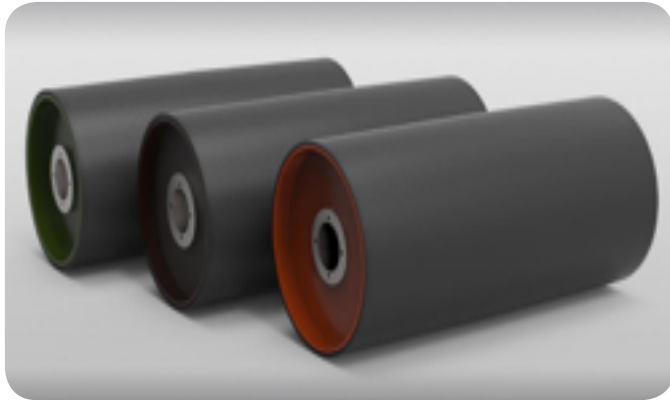

ENMAS RUBBER DIVISION loaded with Technicians having vast knowledge in variety of rubber application. We offer rubber lining of Storage Tanks, Pressure Vessels, Process Vessels, Ponds, Scrubbers, Condensers, FGD's , Clarifiers , Anion , Cation vessels , Mix Bed , Hydrochloric acid, Sodium Hypochlorite, Phosphoric Acid Road Tankers and Rail car, Pipe spools, Scrubbers, Condensers, Demineralization Vessels and any other critical process equipment which requires protection against corrosion and erosion in the chemical industry.

Agitators, Valve Body, Impellers, Water Box, Column

To serve this Global market ENMAS RUBBER DIVISION has joined hands with Indian Rubber materials manufacturer and service providers like ARUL RUBBERS PVT Ltd, AMITY POLYMERS, SM INDUSTRIES & VH POLYMERS who are established and most successive companies providing services and supply around the world in the field of Surface protection. This particular Technical collaboration gives ENMAS RUBBER DIVISION world class expertise in the business which is most support for the growing anti-corrosion market in Oman.

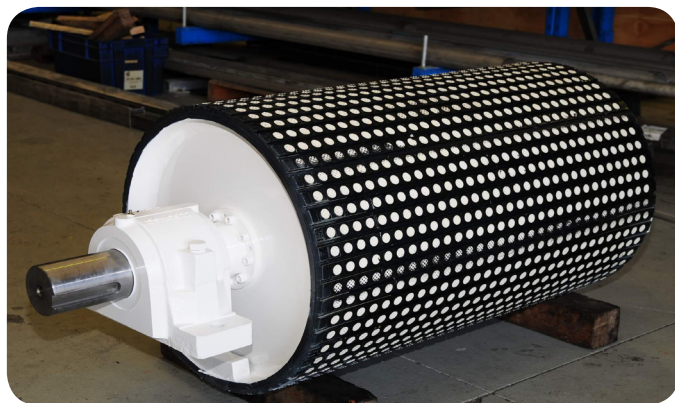

Pulley Lagging & Roller Lining

Plain Lagging

Diamond Grooved Lagging

Ceramic Lagging

Customized

ENMAS RUBBER DIVISION offers one of the best solutions in Pulley Lagging, Roller lining & refurbishment with variable selection of Rubber compounds. ENMAS RUBBER DIVISION pioneered in pulley lagging both plain or diamond grooved, Roller lining. Our self-sophisticated work shop facility and well trained and highly skilled technicians take care of any given sizes and custom requirements.

We mark ourselves with the best in the industry by providing

- Dimensional accuracy
- Quality Proven
- Optimum performance
- Application specific design
- High strength
- Longer life
- Superb finish
- Rugged design
- Easy to use
- Durability

Rubber Products (Moulded & Extruded)

ENMAS Oman is one of the very few Rubber lining company has its Association with companies pioneered in compound, mix, extrude, and mold rubber components and parts. Our associate companies play a vital role in the rubber product market. State of the art production house with well-versed Rubber Product production team. They are one stop shop having all facilities from pre mixing, manufacturing, fabrication, Curing, machining and finishing under one roof. Our supply partners and associates promise of quality have help us play a major role in the market of industrial and commercial rubber products.

ENMAS RUBBER DIVISION can supply a variety of custom moulded & extruded rubber products including rubber gaskets, seals, bumpers and a variety of other applications. We can supply custom extruded profiles in a variety of shapes and lengths with a rubber compound specifically designed to meet your requirements. Our product range will cover all consumable needs of Fertilizers, Water desalination, Power plant, Caustic soda & alkali, Refineries, Steel, Oil & Gas etc.,

Rubber sheet - Compounds Offered

Semi Hard Natural Rubber	90±5° Shore A
Hard Natural Rubber	70± 5° Shore D
Soft Natural (High Abrasion Resistance)	65±5 Shore A
Soft Natural rubber	65±5° Shore A
Soft Natural Rubber	52±5° Shore A
Neoprene	65±5° Shore A
Butyl	65±5° Shore A
Butyl	55±5° Shore A
Nitrile	60±5° Shore A

**Custom made for to suit your requirements.

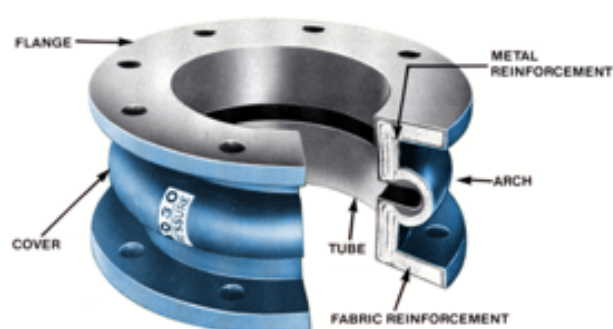

- Gaskets, Seals
- Couplings, Bridge bearing pads
- Bellows and a full range of "D" shape
- Square, solid and cylindrical fenders
- Bumper & Bushes
- Rubber Diaphragm & Gasket
- Rubber Hose
- Rubber Shapes, Stripes and Profiles
- Rubber Cord, tubing & other associated materials

Expansion Joints & Hoses

ENMAS RUBBER DIVISION Tie up with leading manufacturers of Expansion joints, Hoses, Sleeves and Duct Bellows for chemical and non-chemical usage and variety for slurry, liquid and gas applications.

A wide variety of natural, synthetic and special purpose elastomers and fabrics are available to the industry. Materials are treated and combined to meet a wide range of practical pressure/temperature operating conditions, corrosive attack, abrasion and erosion.

Product Range	Application Range
Single Arch Rubber expansion Joint	Oil & Gas
Double Arch Rubber expansion Joint	Power Generations unit
Multi Arch Rubber expansion Joint	Desalination
Canvas Bellows	Cooling systems & Pumps
Leather Bellows	Chemical plants
Rexene Bellows	Sewage treatment
Rectangular Bellows	Caustic soda & Alkali plants
Air & Water Hose	Phosphoric & Urea plants
Chemical suction & discharge hose	Gas Plant & Food process

PTFE Products

ENMAS RUBBER DIVISION joined hands with VH Polymers a leading manufacturer of PTFE (Polytetrafluoroethylene) products. PTFE is having advantage over other materials as its excellent characteristics of chemical corrosion resistance, weathering resistance, dielectric superiority, strong tensile strength, low friction and aging resistance. Our range of PTFE material is very much suitable for linings, seals and electric insulate parts etc.,

Product Range

PTFE Diaphragm	PTFE Skived sheets
PTFE Laminated Diaphragm	PTFE Rod
PTFE Lining in Pipe Spool and fittings	PTFE Tubing
PTFE Sheets	PTFE Bellows
PTFE Gasket	Stainless steel braided PTFE Hose

Turcite Guide Ring Gaskets

Conveyor Belting

ENMAS RUBBER DIVISION is the best solution provider for supply and services of all kind of conveyor systems, Conveyor belting, conveyor accessories. Our partnership with leading global brands of India & Europe gives us the unique advantage of offering our customers the best quality & widest range of products along with the latest developments in the field of conveyor belts.

Conveyor Rollers

- Carrying Rollers
- Impact Rollers
- Return Rollers
- Guiding Rollers
- Cleaning Rollers

Conveyor Pulleys

- Head Pulley
- Tail Pulley
- Snub Pulley
- Special Applications
- Customized Applications
